LABORATORY VISIT TO CJPL

▲ WELCOME TO TAUP2025

We are pleased to announce that the XIX International Conference on Topics in Astroparticle and Underground Physics (TAUP2025) will be held at the picturesque Qionghai Hotel, situated along the beautiful lakeshore of Qionghai Lake in Xichang, Sichuan Province, China, from 25 to 29 August 2025. TAUP2025 targets to gather theorists and experimentalists in the field of astroparticle physics to assess and deliberate on the current state and future directions of our discipline's thematic areas, including cosmology and particle physics, dark matter and its detection, neutrino physics and astrophysics, gravitational waves, high-energy astrophysics, and cosmic rays. Xichang serves as the support city for the China Jinping Underground Laboratory (CJPL), and we are delighted to offer guided visits to the CJPL for our registered participants on 24 and 30 August 2025.

▲ JOIN US AT TAUP2025
